

Kookumak Kaa Da Maa Waad Abinoojiak Council
Grandmothers Protecting our Children 8th Annual

MEDICINE WALK

Stop clinging to frayed and false hopes. Help us return
to our original ways of governance:

"INDIGENOUS MATRIARCHAL VALUES"

Over 500 years of Frayed
patriarchal systems have
failed us. 2015, are things better ?

No priest, no politician,
no church, charity, doctor
nor academic expert
can solve the suffering
of our people...

Our Daughters' Bodies
sold for sex...
mutilated...
raped... discarded.

Our People sit disabled
on remote gov't controlled
encampments, they named
reserves...

Hotels rooms
and strangers
replace
homes and
families for
our children

Have the
Governmental
systems and
westernized
ways helped
our people ?

Our People
sit in the pus of it all...
these festering wounds
of Intergenerational
Trauma that only we can heal...

Our inherent
cultural intelligence
will heal our people

**It is our collective
responsibility to
make change in our
communities NOW.**

Our EarthMother's
Body sold for profit...
enslaved.

Have monies
spent on inquires
and research
helped our
communities ?
