

Riddell Faculty Seminar Series Presents:

Got water?

Thank Shoal Lake No. 40. Panel Discussion

The United Nations recognizes the human right to water and sanitation, as "*clean drinking water and sanitation are essential to the realization of all human rights*". That Shoal Lake No. 40, an indigenous community, is deprived of safe drinking water, as well as an access road, garbage disposal and wastewater treatment, is a human rights violation. This community is at the other end of the water pipe from your home in Winnipeg and all our institutions. More than a Freedom Road is needed when this community lacks clean water.

Students, faculty, and the general public are invited to this free program to come and learn. Be part of a movement to ensure that Winnipeg is no longer considered the most racist city in Canada.

Panel Speakers:

- **Daryl Redsky**, Consultation Officer, Shoal Lake No. 40.
- **Samantha Redsky**, Representative to the UN, Geneva for Shoal Lake No. 40.
- **Cuyler Cotton**, Policy Analyst, Shoal Lake No. 40.
- **Dave Angus**, President and CEO, The Winnipeg Chamber of Commerce.
- MC/Discussants **Eduardo Da Costa/Shirley Thompson**
